WHERE INNOVATION MEETS INTEGRITY

ABOUT COMPANY

CLINLIA is a proud Saudi clinical research consultancy with extensive experience in providing research support and management services across a broad range of therapeutic areas. We are aligned with Saudi Arabia's Vision 2030, aiming to advance clinical research and innovation, and position the Kingdom prominently on the global clinical trials map. **CLINLIA**, driven by limitless ambition, was established in 2021.

VISION

To develop a smart national system with an innovative approach to clinical research consultation, aiming to double the number of clinical trials in Saudi Arabia and the wider region.

MISSION

To become the leading Clinical Research Organization in Saudi Arabia and the region by adhering to the highest standards of Good Clinical Practice and Research Ethics Principles, ensuring exceptional care and integrity throughout the research process.

OBJECTIVES

- To contribute to the growth of clinical research projects in alignment with Saudi Arabia's Vision 2030 through the localization of the medical industry.
- To build a strong and trusted reputation based on consistency, reliability, and commitment.
- To provide skilled and professional staff by developing innovative training and education programs that enhance local capabilities in the clinical research sector.

SOLUTIONS

Our approach ensures that the solutions we provide uphold the values of effectiveness, efficiency, relevance, and adaptability.

KEY FACTORS

INNOVATION

We integrate cutting-edge technologies and data analytics to enhance the accuracy, efficiency, and outcomes of clinical trials.

CREATIVITY

We devise unique, tailored solutions for each clinical research project, fostering innovative thinking and collaboration to address complex challenges effectively.

EXPERTISE

Our 100% Saudi team brings extensive experience and precision to every project, ensuring adherence to the high standards of quality and compliance.

SITE MANAGEMENT SERVICES

Dedicated compliance support and regular monitoring ensure adherence to regulatory requirements and effective study management.

TAILORED TRAINING PROGRAMS

Uphold the spirit of innovation and creativity in shaping a solution that can be accepted by the wider community.

CLINICAL TRIAL UNIT ESTABLISHMENT

Developing tailored SOPs and protocols, along with comprehensive staff training and establishing necessary infrastructure, ensures well-prepared and effectively managed CTU operations.

PHARMACOECONOMIC SERVICES

HEALTH TECHNOLOGY ASSESSMENT (HTA) & ECONOMIC MODELING

We deliver end-to-end HTA support, from early scientific advice to cost-effectiveness, pricing, reimbursement modeling, and localization of global models to meet local health system needs.

EVIDENCE GENERATION & VALUE COMMUNICATION

We synthesize clinical and real-world evidence, develop costing data, and craft clear, evidence-based value stories to support market access and stakeholder decision-making.

MARKET ACCESS & STAKEHOLDER ENGAGEMENT

We design innovative market access strategies and facilitate engagement with payers, regulators, KOLs, and advocacy groups to ensure alignment and successful integration into healthcare systems.

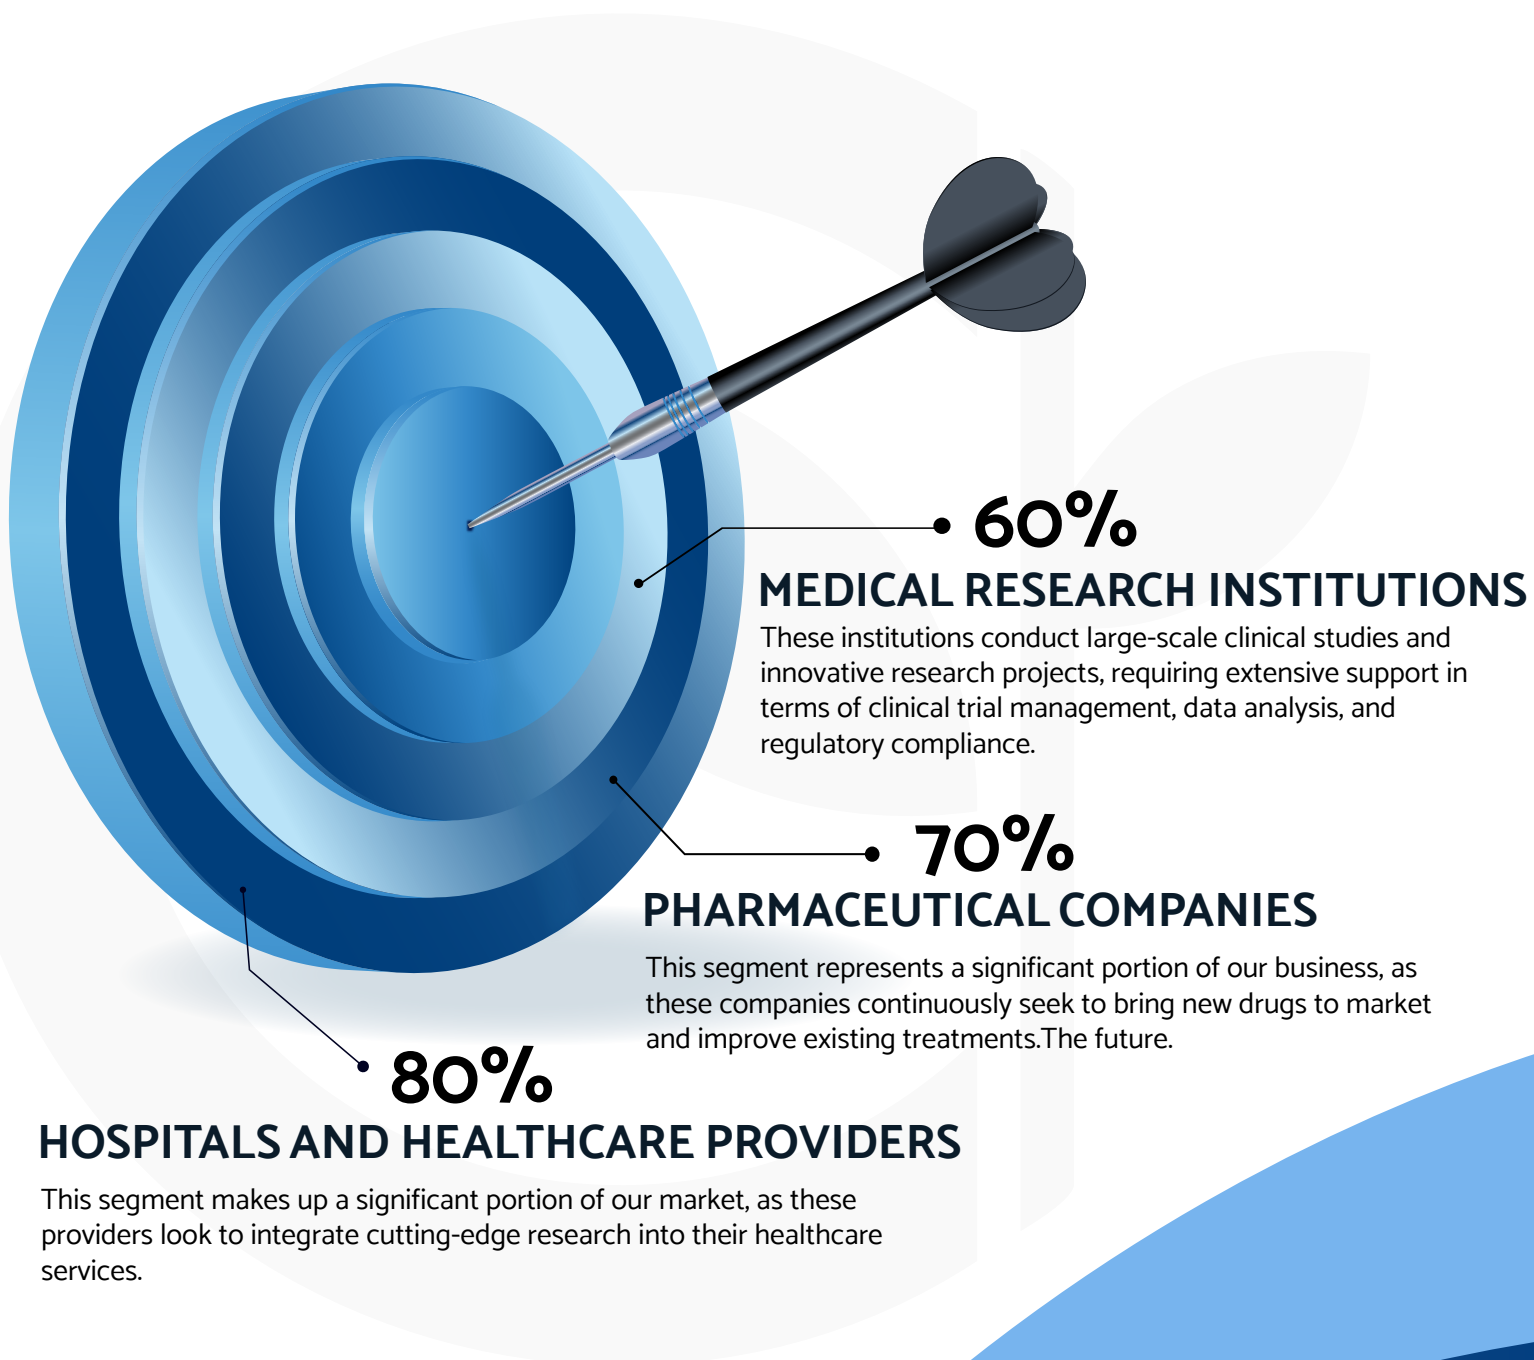

TRAINING, WRITING & CAPACITY BUILDING

We provide expert training, internship programs, and scientific writing services to build local capacity and support effective communication and dissemination of health economic evidence.

EBKAR CONSULTANCY®

KEY ACHIEVEMENTS TIMELINE

Foundation

2021

- CLINLIA was established as a 100% Saudi owned CRO and consultancy.
- Launched with a vision aligned to Saudi Arabia's Vision 2030, aiming to advance the Kingdom's presence in the global clinical trials landscape.

Operational Readiness

2022

- Developed tailored Standard Operating Procedures (SOPs) and infrastructure for Clinical Trial Units (CTUs).
- Began offering consultations and support services across various therapeutic areas.
- Formed early strategic partnerships with healthcare providers and academic entities.

Workforce Localization & Quality Compliance

2023

- Launched custom training programs to build local capabilities in clinical research.
- Expanded internal staff through a focus on Saudi expertise development.
- Adopted Good Clinical Practice (GCP) and Research Ethics compliance models across operations.

Innovation and Technology Integration

2024

- Implemented real-time data systems and real-world evidence (RWE) analysis tools.
- Enhanced operational efficiency with data-driven decision-making tools.
- Strengthened site management and CTU oversight through digital transformation.

Portfolio Expansion & National Leadership

2025

- Launched Pharmacoeconomic Services as a new vertical.
- Positioned CLINLIA as a regional leader in integrating clinical, economic, and policy-driven research solutions.
- Expanded partnerships with pharmaceutical companies, hospitals, and research institutions, reinforcing its role in shaping future healthcare strategy.
